NEW HOSPITAL AT ST. ELIZABETHS EAST UPDATE – MARCH 4TH, 2021

PRESENTATION TO THE COMMITTEE ON HEALTH - FY20 PERFORMANCE OVERSIGHT HEARING

https://newhospitals.dc.gov/
A new GW Health Hospital at St. Elizabeths East in Ward 8 will significantly improve access to high quality, integrated care for all District residents, and address disparities in health outcomes.
Disparities in Life Expectancy

Life Expectancy For District Residents By Ward

Ward 8: 72
Ward 7: 76.7
Ward 5: 76.4
Ward 6: 79.1
Ward 1: 80.9
Ward 4: 81
Ward 2: 85.3
Ward 3: 87.6

For More Info contact keisha.mims@dc.gov or visit the Hospital Website at https://newhospitals.dc.gov
While African Americans make up 46% of DC’s population, 75% of DC residents who have died due to COVID-19 have been African Americans.

85% of Washingtonians who have died of COVID-19 had underlying chronic conditions, including 70% who had hypertension, 50% who had diabetes, and 70% who had two or more conditions.
“...a new, full service, hospital on the St. Elizabeths campus is an enormous victory for the District, especially for the residents and communities of Wards 7 and 8. When completed in late 2024, mothers will again be able to deliver their babies near their homes, patients will receive critical medical treatment in their communities, and residents who wish to pursue a career in health care will have additional training and job opportunities to pursue their dreams.”

Mayor Muriel Bowser
July 21, 2020
1. Ensure that residents of Wards 7 and 8 have access to high quality inpatient care and physicians, delivered in modern facilities, that are connected to a comprehensive system of care.

2. Establish a responsible end to operations at UMC due to accumulating losses and diminishing assets (physical and human) and services.

3. Secure a partnership with a “branded”, high quality, financially strong, regional or national health care operator who can completely “own” and be responsible for a new hospital, including its profits and losses.

4. Remove the District from the “health care” business – not a viable proposition.

For More Info contact keisha.mims@dc.gov or visit the Hospital Website at https://newhospitals.dc.gov
Sample of Services at the new Full-Service Hospital with Verified Trauma Center and Ambulatory and Urgent Care Facilities

Specialty services to meet the specific needs of the community:
- nephrology
- cardiac and hypertension
- orthopedic
- radiation oncology
- cancer
- urology

For More Info contact keisha.mims@dc.gov or visit the Hospital Website at https://newhospitals.dc.gov
What is a Community Hospital with a Verified Trauma Center?

- As a community hospital **with a verified trauma center**, the new Hospital at St. Elizabeths East will look, feel, and function similar to Johns Hopkins Sibley Memorial Hospital.

- The **verified trauma center** can provide **more acute emergency services** than a traditional community level emergency department.

- The **new hospital** will be able to treat nearly 90% of **all trauma incidents** that occur in Wards 7 and 8.

- We expect that **85% of gunshot injuries** can be **treated** at the planned trauma center.

---

**A Verified Trauma Center includes:**

- Dedicated Trauma Director and Trauma Program Manager
- Injury Prevention Specialist
- 24/7 General Surgery Availability
- 24/7 Orthopedic and Neurosurgery Availability
- Dedicated Orthopedic Surgeon

For More Info contact keisha.mims@dc.gov or visit the Hospital Website at https://newhospitals.dc.gov
In the first 12 months of operations, the new hospital will receive and treat over:

• 40,000 Adult and Pediatric Emergency Room Visits;
• 8,000 Outpatient Visits; and
• 5,000 Inpatient Admissions.

• Trauma cases will account for only 1.5% of emergency department visits.

For More Info contact keisha.mims@dc.gov or visit the Hospital Website at https://newhospitals.dc.gov
• The agreement includes a training program for existing UMC staff who wish to work at the new hospital to help ensure that existing UMC staff meet the credentialing and/or hiring standards of the new hospital.

• The District will begin the training program two years prior to the new hospital opening.

• Staff who meet those standards and are interested in working at the new hospital will receive a hiring preference.
Community Engagement

• Pursuant to the Agreement for the New Hospital, a draft community engagement plan was posted online on Wednesday, December 9th, 2020.

• For a copy, please visit: https://newhospitalsystemstelizabethseast.com/wp-content/uploads/2020/12/Initial-Outreach-Plan-Hospital-at-St.-Elizabeths.fn12_.pdf

• In addition, within ninety (90) days after the execution of the Architect Contract (which is still pending), the Architect, the Program Manager and other consultants hired by the Program Manager shall, with the support of District, prepare a community engagement plan.

Planned Engagement Strategies

• Elected Officials and Councilmembers
• Virtual Community Meetings/Townhalls
• Community Groups, Associations and ANC Meetings
• Senior Centers, Homes and Groups
• Recreation Centers
• Schools
• St. Elizabeth’s East Redevelopment Council
• Door Knockers
• Website
• Health Associations
• Federally Qualified Health Centers
• Faith Based Organizations

The Team

Architecture and Engineering

- UHS selected HOK/McKissack & McKissack to design the new hospital.

- The team of HOK/McKissack & McKissack will invest 40% of the design and engineering with local CBEs, supporting District businesses.

- HOK/McKissack & McKissack holds a healthcare portfolio of over $500 million in healthcare volume.
  - Recent work includes the Smithsonian National Museum of African American History and Culture, the District of Columbia’s Forensics Lab, the new medical expansion for the National Institutes of Health, the Tubman Quad Redevelopment at Howard University and the George Washington University Corcoran Hall.
  - Outside the region, their recent work includes New York Presbyterian Hospital, the Harlem Hospital Center Modernization and the new Medical Center at Indiana University Health.

Construction

- UHS has selected a National Construction Firm that has partnered with a Local Leader in Construction.

- UHS has worked with HOK and the to be announced construction firm on other hospital projects across the county.
